Sir:

SUPPLEMENTAL INFORMATION DISCLOSURE STATEMENT  
UNDER 37 CFR §§ 1.56, 1.97, AND 1.98

Applicants submit herewith patents, publications, and other information of which they are aware, which they believe may be material, as defined in 37 CFR §1.56(b), to the examination of this application and in respect of which there may be a duty to disclose in accordance with 37 CFR §1.56(a). While the information referred to in this Supplemental Information Disclosure Statement may be material pursuant to 37 CFR §1.56(b), the filing of this Supplemental Information Disclosure Statement is not intended to, pursuant to 37 CFR §1.97(h), constitute an admission that any patent, publication, or other information referred to is, or is considered to be, material to the patentability of this invention. No representation is made that a reference is "prior art" within the meaning of 35 U.S.C. §§ 102 and 103, and Applicants reserve the right, pursuant to 37 C.F.R. § 1.131 or otherwise, to establish otherwise. Further, pursuant to 37 CFR §1.97(g), the filing of this Statement should not be construed as a statement that a search has been made or that no other material information exists.

The materials submitted in the Supplemental Information Disclosure Statement, i.e., the office actions cited in unrelated Hersey et al U.S. Application Serial No. 11/494,066 (hereinafter '066 application), stem from a USPTO docketing error which Applicants were recently made aware. Applicant's PCT Publication WO/2005/043669, which the present application claims

Serial No. 10/575,754  
Docket No. UVD 0323 PA/40815.531

priority, was cited in an IDS submitted on July 27, 2006 by the Applicants of the '066 application. When the '066 application published, it inadvertently published with the disclosure and claims of PCT Publication WO/2005/043669, not the as filed disclosure and claims of the '066 application. By the time this error was realized by the patent counsel of the '066 application, multiple office actions were issued for the incorrect claim set. As these office actions pertain to the claims of the present application, albeit erroneously, the office actions are provided and cited herein.

This Supplemental Information Disclosure Statement is filed after the period set forth in §1.97(b), but before the mailing date of any of a final action under § 1.113, a notice of allowance under § 1.311, or an action that otherwise closes prosecution in the application.

The Supplemental Information Disclosure Statement is accompanied by a Credit Card Payment in the amount of \$180.00 in payment of the required fee set forth in 37 CFR §1.17(p).

The Office has waived the requirement pursuant to 37 CFR 1.98 (a)(2)(i) for submitting a copy of each cited U.S. patent and each U.S. patent application publication for all U.S. national patent applications filed after June 30, 2003 and for all international applications that have entered the national stage under 35 USC § 371 after June 30, 2003. Therefore, no copies of each cited U.S. patent and each cited U.S. patent application publication are enclosed, but the cited U.S. patents and the cited U.S. patent application publications are listed on PTO/SB/08a. The Non-Patent Literature cited on PTO/SB/08a are attached.

Respectfully submitted,
